

## To bring more satisfaction, smiles and delight to society

Plenus entered the food business in 1980. We have maintained the "customer first" credo since our founding, and have taken it upon ourselves to think from the customer's point of view and respect the customer's feelings in operating our business of offering freshly prepared enjoyable food.

Through our main business brand "Hotto Motto", a *bento* takeout meals chain, and "Yayoiken", a Japanese set-menu restaurant chain, we promise to fulfill our goal of bringing plenty more contentment - values that inspired the company name - to everyday life. We will bring even greater satisfaction to people throughout Japan and the world.

Plenus will keep its eyes on the future of society, and will continue challenging itself to bring satisfaction, smiles and delight to a great many people through its commitment to the local community, the environment, health and good eating.

Plenus Foods Co., Ltd. polishes brown rice and processes various foods to Plenus group companies. The rice milling center, called “Seimai Center”, mills rice systematically and supplies to our group stores the just-milled, healthy, and delicious rice called “Kinme Rice.” The meat processing plant developed Japan's first continuous defrosting machine, which enables to defrost the frozen raw materials in one hour with low temperature steam. Moreover, both of the two facilities are located next to Plenus central distribution center, which leads to minimize the loss of time and construct an efficient delivery system supplying fresh food products to our group stores.
